

Final Project

Choose a kali linux tool whose goal is one of the following fields:

- 1-Information gathering
- 2-Vulnerability analysis
- 3-Web application analysis
- 4-Password attacks
- 5-Wireless attacks
- 6-Sniffing & spoofing

You should get to know the chosen tool and deal with it so that it achieves the desired goal of hacking, stealing information, or spying on specific information

Create a powerpoint presentation and a video about the tool, how to use it, and the result obtained through it

Bonus:

Choose more than one tool

Notes:

The project is individual

Projects will be discussed from 12/4/2025 to 15/5/2025

discount 50% on late delivery

Repeat Submission of the presentation file or video 0
